

## ENVIRONMENT ALARM PACKAGE

EPA Products Ltd simple audible alarm system package is designed for free range and organic poultry shed as well as piggerys.

The simple to install and operate system will monitor high temperature and main power failure.

The alarm control unit is connected to the main power supply. A built in 12vdc battery supply fitted inside the unit is trickle charged. The High temperature alarm thermostat is connected back to the alarm panel (24vac for safety).

The Alarm Siren is also connected back to the Alarm Control Unit.

The Alarm Control Unit is fitted with a battery charge indicator lamp, alarm test and isolator switch. (Optional High/Low Thermostat can be supplied)

- Compatible with EPA Products Radio Alarm System
- Compatible with EPA Products GSM Telephone System
- Compatible with EPA Products Telephone Dial Out Systems
