

## Water Level Alarm

Simple water alarm designed to be used with EPA Products Environmental Alarm System with normally closed alarm loop

The Water Alarm will monitor the water level of the header tank (float Switch Supplied) switch or water pressure for pumped system (pressure switch optional).

- LED indicator lamps fit-
  - Bright Blue – Water system OK
  - Bright Red – Water shortage
- Key Switch – To Isolate or Arm the water alarm.

### Additional Features

- Poly carbonate printed enclosure
- Low voltage loop to float for safety.
- Alarm monitor main power supply
- Alarm output to main alarm NC volt-free contacts
- Requires float (*Available through EPA*) or pressure switch
